

# WAKENING

— PERSONAL DEVELOPMENT & LEADERSHIP COACHING —

## **School Seminar - My Child is a Genius**

Duration: 1 ½ Hours

*Each child is a genius and is designed for greatness. We have limited our vision and therefore very often do not see the potential that lies within our children. This experience promises to be the most informative and enlightening experience for any parent or educator. It will focus on powerful tools to develop character, simple techniques to unleash potential and will bring the love and joy back into teaching and parenting.*

### **You can look forward to the following powerful discussion points in this seminar:**

#### Each Child is Unique

No matter what a child's challenges and circumstances, he/she is a being that was meant for greatness.

#### Each Child is a Powerful Creator

A child possesses a remarkable mind that is capable of achieving anything, provided they receive the correct guidance and support.

#### The Power of the Mind

Your words and actions as a parent or educator have the ability to inspire or negatively affect the lives of your children. Understand the power of your mind and only then will you effectively be able to model the innocent minds of these children.

#### Effective Learning

Effortless learning is an inherent capability. An understanding of these "mental laws" is the key to unleashing ours' and our children's limitless potential.

#### Understanding My Child

It is vital that as parents and teachers we understand the importance of compassionate listening. This leads to the building of trust and love by spending quality time together with our children. All children are complete as they are... stop... listen ... observe and you will realise that your child is a genius.
